

# ESO demands

## ESO's prerequisites to guarantee a “new social Europe”

### **A social-democratic Europe**

- An active Europe in peace, freedom and justice for all people.
- An European stability-pact, a all-embracing financial market regulation and central supervision of the financial market.

### **An Inclusive Europe**

- Active participation of older people by co-determination and recognition of their achievements in society
- To overcome age discrimination and realisation of solidarity and justice between generations
- Promotion of work and employment for older persons, strengthening of employment rights and a human migration policy.
- Extensive fight against poverty and social exclusion

### **A stable Social Security**

- Fundamental right of an old age in material security, secured purchasing power of the pensions through new forms of financing, a.o. through contribution assessment based on value added.
- No “Two-Class-Medicine” – medical care independent of age and status
- High quality affordable long term care, uniform standards for a human care.

### **Promoting Life Long Learning**

- Better access to knowledge, education, further training, culture and information.

### **A consumerfriendly Europe**

- Strengthening of consumer protection and food safety.

### **Seniorfriendly mobility and accomodation**

- Securing mobility and new dwelling forms for senior citizens
